As a member of Council of *American Society for Photobiology*, I, _____, am committed to the society's goal to establish and maintain the highest level of public confidence in its accountability. I have personally committed to follow the standards set out below, which are a part of *American Society for Photobiology's* conflict of interest policies: I will conduct my activities with the board of directors of *American Society for Photobiology* so that I do not advance or protect my own interests, or the private interests of others with whom I have a relationship, in a way that is detrimental to the interests of, or to, the fundamental mission of *American Society for Photobiology*.

In every instance in which I represent the *American Society for Photobiology*, I will conduct my activities in a manner to best promote the interests of *American Society for Photobiology*. In all matters that come before the board of directors for a vote that may favorably impact my own financial interests, or the private interests of others with whom I have a financial relationship, I will reveal that relationship and abstain from a vote in the matter. When a conflict of interest arises, or when a potential conflict of interest emerges, I will disclose that conflict, or potential conflict, to the director of *American Society for Photobiology* or to the President of the Society and seek a resolution of that issue.
